

| Parameter             | KAIRA LBA array           | FMI All-Sky Camera                    |
|-----------------------|---------------------------|---------------------------------------|
| Observing wavelengths | 7.87 & 5.12 m (VHF radio) | 557.7 & 427.8 nm (green & blue light) |
| Longitude             | 20.762° E                 | 20.786° E                             |
| Latitude              | 69.071° N                 | 69.052° N                             |
| Height                | 523 m                     | 480 m                                 |
| Magnetic longitude    | 102.384° E                | 102.391° E                            |
| Magnetic latitude     | 66.076° N                 | 66.056° N                             |
